

MMH introduces future doc at Health Fair

Written by Holyoke Enterprise

□□ Dr. Danielle McClellan, who plans to join the staff at Family Practice of Holyoke in July, is introducing herself to Betty Dix at the Holyoke Health Fair, which was held at Holyoke High School on Saturday, March 21. She and her family used the Health Fair as an opportunity to introduce themselves to the community they will soon be joining. McClellan even helped blood draw participants read their results.

□□ A total of 719 blood draws were done for this year's fair. Those who were unable to attend the Health Fair to pick up their results can call Sharon Greenman, MMH Human Resources Director, at 854-2241. Results that have not been picked up within 10 days will be mailed.
