

Warner hospitalized following accident

Written by Holyoke Enterprise

Seth Warner, 26, of Holyoke, is in stable condition in the intensive care unit at Swedish Medical Center in Englewood following a Sept. 23 accident near St. Francis, Kan.

According to Warner's mom, Vickie, Seth was returning home from St. Francis early in the morning Sept. 23 when the one-vehicle accident occurred about 10 miles from St. Francis.

He was taken by Flight for Life from the hospital in St. Francis to Swedish Medical Center.

Monday afternoon, his mom said he is still on a ventilator. Vickie also said Seth suffered broken ribs and a plate was put in his hip as a result of the accident.

Through the first full week following Warner's accident, family members have been in Denver with him. That includes his parents, Milt and Vickie, and brothers Derrick and Jeremy, all of Holyoke; and his aunt, Tracy Boyer of Oklahoma.

His parents continue to stay nearby, and Vickie said she will be glad when Seth can talk to her.

Cards may be sent to Seth and his family at the following address:

Seth Warner
Swedish Medical Center
501 E. Hampden Ave., Room 4110
