The third annual Northeast Colorado Diabetes Seminar will be Thursday, Nov. 14. This year's topic is Stress Reduction for Diabetes and Other Chronic Diseases.

The seminar will be broadcast live via Internet to several locations in northeast Colorado from noon-1 pm. In Phillips County, the seminar will be broadcast in the Ortner Room at Phillips County Event Center.

Plans are to have it broadcast in at least one location in each of the seven northeast Colorado counties. Participants can select the best location to attend.

Lorrie Boyer will present this seminar, which is part of the Healthier Living Colorado curriculum. Attendees at all locations will be able to see the speaker as well as participate in a live question and answer session.
