

County landfill fees to change

Written by Darci Tomky

Phillips County Landfill has altered some fees, as reported by Phillips County commissioners at their May 30 meeting.

Unsecured loads of construction debris will be subject to a \$100 fee, while unsecured loads of other trash will be subject to a \$30 fee, effective Monday, June 9.

An additional change is for the roll-off boxes available through the county. The minimum two-day fee is \$40 plus a \$50 delivery fee, with a \$20 fee for each additional day.

Commissioners also approved that sales tax will not be charged to the Haxtun school construction project for supplies purchased in Phillips County.
