

New optometrist to serve Holyoke's eyecare needs

Written by Kyle Arnoldy

Continuing to extend their services across the state line to Holyoke Eye Care Center, Ogallala Eyecare out of Ogallala, Neb. will be introducing a new optometrist to northeastern Colorado in December.

Starting Thursday, Dec. 5, Dr. Faith Schneider will begin making trips to Holyoke to serve the community's primary eye care needs for children and adults. She also offers pre- and post-lasik eye surgery exams and pre- and post-cataract evaluations.

Schneider will make the drive to Holyoke Eye Care Center at 111 W. Emerson St. a few Thursdays each month and Dr. John Paloucek will continue to serve Holyoke on the Thursdays Schneider does not travel.

Hailing from Deshler, Neb., Schneider said that Ogallala was an ideal location as she was hoping to get back closer to home where she still has family.
