

## Price awarded energy scholarship

Written by Holyoke Enterprise

---

Brandon Price, a sophomore at Iowa Lakes Community College, recently received a \$1,000 Alliant Energy Scholarship.

The Alliant Energy Scholars program was established in 2004 by the Alliant Energy Foundation. Three \$1,000 scholarships are awarded to students enrolled full-time in the wind energy and turbine technology program at Iowa Lakes Community College.

Other requirements include financial need as determined by FAFSA form results and minimum cumulative 3.0 GPA.

Preference may be given to minority students or women in this non-traditional area of study. The 2010-11 recipients are Price of Holyoke, Megan Ludewig of Springfield, Minn. and Dion Higgins of Jackson, Tenn.

Price is the son of Joan Price and is a student in the wind energy and turbine technology program.
