Students at Holyoke Elementary School absolutely smashed last year's numbers when it came to reading during this year's third annual Partners in Education (PIE) reading contest.

Last year, 28 students read for a grand total of 27,023 minutes. This year, the numbers were way up with 74 students reading a total of 52,269 minutes—or 871.2 hours or 36.3 days.

Participants gathered Wednesday, Dec. 19 for a photo and to find out who won in each grade.

Those with the most minutes in each class were presented with a prize by PIE member Jessica Johnson.

PIE announces winners in annual reading contest
