

Students track steps for Fitness Challenge

Written by Holyoke Enterprise

Holyoke High School students participated in Fitness Challenge during the week of March 18-28. The 80 students who signed up wore a pedometer for one week to keep track of the number of steps they walked. Students were challenged to keep moving as much as they could.

Megan Vieselmeyer, Luke Stewart and Tito Fierro put the challenge together as part of an FCCLA Student Body project to get their generation of peers to become more active.

Sophomore Anastasia Conklin is the winner of the FCCLA Student Body Fitness Challenge.

Local businesses donated prizes to encourage students to be more active. The top 12 students and faculty who had the most steps received a certificate to one of the local businesses. Sophomore Anastasia Conklin had the most steps and received top prize.
