

## 13 is lucky record for Dragons after two back-to-back wins

Written by April Peregoy

---

Remaining unstoppable this season, Holyoke's Dragon varsity team blew away the back-to-back weekend competition to win their 12th and 13th victories of the season.

Traveling to Akron on Friday, Jan. 30, Holyoke took a big win of 55-26, then hosted Chase County on Saturday, Jan. 31, beating the Longhorns 56-39.

Coach John Baumgartner could not complain about the way his team played over the weekend, saying, "the kids were outstanding."

"Right now, they're doing everything right," he said. "They're playing with a lot of confidence and shooting extremely well. Hopefully, we can keep it up."

Holyoke 55, Akron 26

For the second time this season, Holyoke defeated the Akron Rams in league action on Friday. The Rams never stood a chance against their opponents who leaped ahead 17 points in the first quarter. Austin Tharp and Evan Swanson each landed two shots from three-point range.

Dragon's defense held Akron to only four points in the first. "We shut down Akron's two top players," said Baumgartner. "They only had four and two points each the whole game."

Again in the second quarter, HHS players continued to put distance between them and the Rams. At halftime, they held a comfortable lead of 27 points. Tharp led the scoreboard in the first half, earning 10 points each in the first and second quarters.

In the second half it was Kyle Carper who dominated the game, making eight of HHS's nine points in the third quarter and six of nine in the fourth. Akron earned nearly the same amount of

points in the second half as Holyoke, putting up eight points each in the third and fourth quarters. However, the Dragons had such a large advantage from the first half, they easily won by 29 points.

Tharp and Carper were top scorers Friday night, adding 21 and 19 points respectively. Overall, the Dragons had a 63 percent shooting average.

Carper grabbed the most rebounds with 10, and Ryan Baumgartner and Austin Tharp snatched four steals each.

### Scoring By Quarters

Holyoke 21 16 9 9 --55

Akron 4 6 8 8 --26

Holyoke 56, Chase County 39

Again on Saturday, the Dragons quickly gained a strong lead in the first half against Chase County. "I don't think I've ever had a team score that much in the first halves, in back-to-back games like that," said Baumgartner. However, he added, he would have liked to see them keep it up more through the second half of the game.

According to the coach, the Longhorns had some big players who played with a different style from what the Dragons were used to, but Holyoke handled it well. "They were all over the place," said Baumgartner, "on the floor, grabbing rebounds and making shots from the outside."

Five Dragons contributed to the 23 points Holyoke put up in the first quarter alone. Carper attained the most baskets with three two-pointers and two free throws.

HHS continued to increase the lead in the second, holding Imperial to 10 points while adding 17 points to their own total to bring the halftime score to 40-19.

Chase County did their best to catch up in the second half of play, but Holyoke's advantage was too great to overcome. The Longhorns were allowed 20 more points, compared to HHS's 16, but the
