

Bowling lanes to be replaced by parking spaces

Written by Holyoke Enterprise

Construction crews spent much of the morning Monday, April 22 tearing down what used to be a bowling alley located in the 200 block of South Campbell Avenue. The site will soon be transformed into a new parking facility that will house vehicles for the sheriff's office and maintenance equipment for Phillips County. A portion of the property will also be leveled and used for overflow parking needed on court days.□ □
